

Decorate the Helmet

Add stickers or simply color the helmet the way you like.

Fit a Bike Helmet Correctly

A helmet should sit level on your head. Not too high or too low with two fingers able to fit above your eyebrows.

The straps should make a “V” shape around your ears.

A helmet should be snug. One finger should fit between your chin and the strap. If you open your mouth, you should feel your helmet pull down.

A helmet fits right when you shake your head and it stays on tight.
